## Cincinnati Sues Kansas City Feds

Chicago, April 25.—The Cincinnati Exhibition Company, which operates the National Lengue baseball club, filed suits in the Superior Court here asking \$20,000 damages from C. C. Madison, president of the Kansas City Federal League club, and \$10,000 from George Johnson, pitcher, as a result of Johnson "jumping" to the Federal League. The complaint charges Madison with obtaining a player under contract with the Cincinnati club, and charges Johnson with breach of contract.

### Smallwood and Bresnahan Released

Manager Ray Ryan announced last night that he had released Pitcher Walter Smallwood and Third Baseman Connie Bresnahan. Both are good boys, and should prove useful to some club in the Virginia League. Ryan has a surplus of material, and the weeding-out process has begun. Shortstop William Ryan goes with Charlie Strain to the Huntington, W. Va., club of the Ohio State League.

For the first time in years the Richmond club will not be at home on Saturday. Instead the team will have a chance to see ball games, for the teams of the Capital City League, of the amateur organization, will put on a double-header.

Other changes in the Colt line-up are expected shortly. It is known that Ryan is after pitchers, and before the week ends he hopes to have at least two youngsters here ready to step into the breach and win games.

Great progress has been made in over-coming all forms of blood sickness by the famous blood purifier, S. S. S. And rheu-matism has been dethroned as never be-fore. But people are restless. They look for "new discoveries." And out of the dim, musty past there will, now and then arite the same old Cloven Foot, the same old Princo of Darkness to stampede all the progress accomplished by a safe and rational medical effort.

8. S. S. is a Perfect Wizard to Cure Rheumatism. Severe nervous disorders were overcome by S. S. after great damage had been wrought by the rocks and metals reduced to drugs. Stomach disorders of the most serious nature, clogged kidneys, hardened serious nature, clogged kidneys, hardened liver, catarrhal troubles, chronic bronchitis, asthma, and many direct and reflex diseases have all been the result of harmful drugs. It is, therefore, wise to consider the purely vegetable nature of S. S. S., its long history of successes, its almost universal sale and the fact that almost universal sale and the fact that in every community throughout the United States are people who have cured the worst forms of rhenmatism, catarrh, carbuncies, blood risings and all other forms of sickness and disease arising both from impurities in the blood and from the drastic drugs that were used in the mistaken idea they represented real medical treatment.

Now to what extent the present generation owes its rheumatism to the mercural treatment of former days is an outstanding controversy.

We judge from an extensive correspondence during the past forty years, that a hest of people trace their rheumatism to a past generation, to their fathers and grandfathers. It "runs in the family." And it is safe to predict that the oncombing generation will likewise suffer so long as the use of mineral drugs is continued. Such drugs have been the "casiest way," a coat of veneer to hide the certain destructive tendencies going on within. This fact has been revealed times without number. Recoveries by the use of S. S. S. point to where innumerable cases of rheumatism were traced to deposits in the joints by mineral drugs.
